

DIMAS ARYA RAMADHAN SETIAWAN

Full Stack Web Developer & Machine Learning Enthusiast

+6287894818389 | dimasarya81821@gmail.com | Indramayu, West Java (currently residing in Bandung for internship)

Profile

A highly motivated Fullstack Developer in the 7th semester of a D4 Software Engineering program, with practical experience in building scalable web and mobile applications using Laravel, Flutter, MySQL, PostgreSQL, and modern front-end frameworks such as Bootstrap, Tailwind CSS, and Alpine.js. Skilled in developing and integrating RESTful APIs, collaborating in agile teams, and delivering end-to-end solutions through academic, internship, and independent projects. Eager to contribute to impactful digital products while continuously advancing technical expertise in backend development and AI integration.

Hard Skill

- | | | |
|--------------|----------------|--------------|
| • PHP | • AJAX | • JQUERY |
| • JAVASCRIPT | • MYSQL | • ALPINE.JS |
| • LARAVEL | • WORD | • POSTGRESQL |
| • FLUTTER | • EXCEL | • MACHINE |
| • PYTHON | • FIGMA | LEARNING |
| • CSS | • TAILWIND CSS | • LIVEWIRE |
| • BOOTSTRAP | • REACT JS | • EXPRESS JS |

Soft Skill

- | | |
|-------------------|----------------------|
| • Time Management | • Project Management |
| • Public speaking | • Brainstorming |
| • Leadership | • Teamwork |

Experience

Campus Project – Intellectual Property System Politeknik Negeri Indramayu	Sep 2023 - Nov 2024
Fullstack Developer	

- Developed Laravel-based application for managing intellectual property data
- Built backend system and database
- Created an interactive dashboard for both users and admins
- Used GitHub for version control and collaborative development with the team

MBKM Project – Innovation and Research Dashboard Politeknik Negeri Indramayu	Sep 2024 - Mar 2025
Fullstack Developer	

- Developed a web-based dashboard to display innovation and research data using Laravel for backend, for frontend Bootstrap and Alpine.js
- Collaborated with the team to define the design and key features of the dashboard
- Built backend system and database with MySQL
- Implemented form validation using AJAX and Laravel controllers
- Developed and integrated RESTful APIs with the team to enable data exchange between backend and frontend modules

Self Project – Travel Fortuna Cakrawala Web

Fullstack Developer

Jan 2025 - Feb 2025

- Developed a web-based application using Laravel for the backend, for frontend using Tailwind CSS and Alpine.js
- Worked independently with full-cycle delivery: UI/UX planning, development and testing
- Built backend system and database with MySQL
- Implemented form validation using AJAX and Laravel controllers

MBKM DBS Foundation Program

Machine Learning Engineer

Feb 2025 – Jul 2025

- Participated in a 6-month industry-based learning program focused on Machine Learning and AI applications.
- Developed an emotion detection system (Rasa Kata Project) using an LSTM model, deployed via Flask REST API.
- Containerized the AI model with Docker and integrated it with an Express.js backend, enabling seamless real-time predictions.
- Used GitHub for version control and collaborative development with the team

Internship - MyBTP Super App Web Based | Bandung Techno Park

Fullstack Developer

Jul 2025 - Present

- Developed a web-based application using Laravel for the backend, and Livewire, Tailwind CSS, and JavaScript for the frontend.
- Collaborated with the team to define the design and key features of the external grants
- Built backend system and database with PostgreSQL
- Used GitHub for version control and collaborative development with the team

Self Project – Autonomous Bimbel Platform (In Progress)

Fullstack Developer

Jul 2025 - Present

- Building the frontend with Next.js to ensure responsive UI and smooth learning experience.
- Designing and implementing RESTful APIs using Express.js for user, content, and progress management.
- Exploring the concept of an autonomous learning system powered by AI for personalized progress tracking and adaptive quizzes.
- Serving as the lead developer and system architect, responsible for end-to-end development, including authentication, database design, and feature planning.

Education

- SMA Negeri 1 Sindang

2019 - 2022

- Politeknik Negeri Indramayu

2022 - Present

D4 in Software Engineering (7th Semester, IPK: 3,88

Expected Graduation: October 2026)
